

The Vision Chronicles

Remote Learning Week 1

I hope that this newsletter finds you and your family settling in to our current situation as home based learners. I know that all of the amazing educators in our school system are working hard to bring curriculum directly to our students in different formats. And I also know that our parents are doing double, and sometimes triple duty, as parent, "schoolwork facilitator", and in many cases, trying to complete your own work. These are difficult and trying times, but know that we are all in this together. Keep the lines of communication with your child's teachers open, and utilize the incredible resources that have sprung up all around us. Please try not to feel overwhelmed, we are all taking this one day at a time. I wish you and yours the best when it comes to physical and emotional health, and I will continue to try to connect you with the resources that will help us function during these trying times.

We would like to match volunteers to the needs of students with visual impairments during this time of school closures. Families and volunteers are invited to fill out the forms, so that needs can be matched to available help.
